Become a High-Powered Speaker and Trainer!

**The Dynamic 3-Day
Speaker/Trainer Boot-Camp
with International Trainers,
Dr. George Bien & John Rozsa**

The further up the success ladder you move, the more important becomes your ability to speak and communicate powerfully and sincerely!

Whether or not you become a professional speaker, if you don't enhance your communication-speaking skills, you will fail to achieve your greatest potential in life.

**You will be delivering
Presentations like a pro
during the Workshop —
Comfortably
and Enthusiastically!**

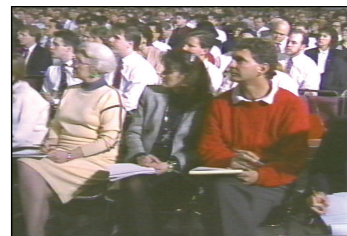

Whether you are a professional speaker and/or workshop-seminar leader, or you simply want to be a more confident, charismatic communicator, these may be *the most important 3-days of your life!*

Studies have shown that people who speak better are perceived as being more attractive, sexy, exciting, and intelligent, and make more money.

Public speakers, motivational speakers, inspirational speakers, keynote speakers, workshop leaders and seminar presenters are among the highest paid people in the world!

There are a handful of people who have already mastered the art of delivering winning presentations. They channel their nervousness into positive energy, use precise body language and vocals to reinforce their authority, and can seemingly turn every potential disaster into opportunity with grace and style. These people have perfected methods and strategies that guarantee strong and effective presentations.

***You Too Can Learn the Secrets of the
Master Presenters and Communicators!***

These tools will work whether you're a novice at speaking in front of a group, or a seasoned veteran who would like to enhance his/her presentation skills!

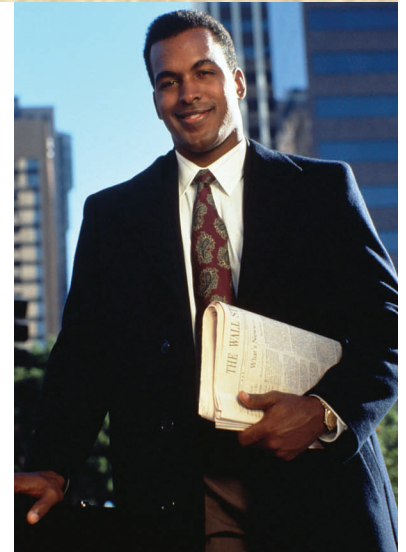

Deliver captivating presentations that engage the full attention of your listeners!

Extinguish your fears of public speaking and gain unshakable confidence!

Learn how to express yourself, to be “real,” so your audience feels your sincerity and believes every word you speak!

Create a Charismatic personality that draws people towards you!

With over 11 million meetings and conventions scheduled each year, nearly all professional trade associations, most major corporations, schools and universities, religious organizations, governmental agencies, charitable foundations, and social clubs search for and hire speakers to provide both education and enlightenment for their meeting attendees. And because “education and enlightenment” are usually an organization’s primary responsibility, meeting planners spend a large portion of their budget on hiring YOU, the speaker. The opportunities for trainers are equally enormous.

Your presentation style may be strictly educational in nature or it may be motivational. You may wish to enlighten through humor or you may wish to inspire through emotion. Your lecture may be full of statistical data or it may include creative stories. You may prefer small audiences with whom you interact or you may enjoy the thrill of a standing ovation from the crowd in a stadium. We will help you define your strengths and we will guide you toward your most comfortable stage presence. We will then help you “IGNITE” your presence and create powerful delivery!
